2 CREW

PRICE: 4.900.000 ex VAT

ABOUT

Built in solid aluminium by VisionF Yachts and launched in 2024 for her first and only owner, SITARA is an exceptional power catamaran measuring almost 25 metres in length with a beam of nearly 10 metres. Her contemporary design combines remarkable interior volume, expansive outdoor spaces and efficient long-range performance, delivering the comfort and presence of a much larger yacht.

SITARA accommodates guests in a generous Master Suite and two spacious VIP cabins, while a versatile office can easily be converted into an additional guest cabin. High-quality natural materials, refined craftsmanship and thoughtfully integrated living solutions create an elegant yet relaxed atmosphere throughout. A fully equipped galley supports comfortable extended stays, while existing storage areas can be converted into additional crew accommodation.

Designed for Mediterranean living, her exterior spaces feature generous dining areas, large BBQ stations and an enormous teak-clad foredeck ideal for sunbathing, entertaining, yoga or relaxing in complete privacy. A large hydraulic swim platform can accommodate a tender of up to 3.4 metres while also providing effortless access to the sea.

Powered by two Volvo Penta IPS 1050 propulsion systems and supported by 175 kW of electrical capacity, SITARA combines efficiency with impressive autonomy. With 15,000 litres of fuel, she offers a range of approximately 3,500 nautical miles at 8 knots. Numerous solar panels and high-capacity watermakers further enhance her ability to operate largely self-sufficiently.

The Volvo Penta Glass Helm system with Garmin integration combines navigation and Dynamic Positioning, while an advanced AI-powered 360° lookout system using optical and thermal cameras enhances collision detection and onboard safety.

Summer Location: Cruising the Mediterranean — Italy & South of France

Winter Mooring: San Remo, Italy

VisionF 82 "SITARA"

SPECIFICATIONS

Builder: VisionF Yachts

Model: VisionF 82

Year: 2024
